Mix contemporaneo di natura e tradizione

A contemporary mix of nature and tradition

Una suggestiva interpretazione della materia cemento in cinque colori, dai contorni morbidi e dalle tonalità calde, si unisce con audaci accostamenti a superfici effetto pietra che ripropongono l'originale texture di una pietra quarzite brasiliana in tre tonalità. Una sapiente calibrazione dei colori consente un perfetto abbinamento tra i fondi Concrete e i fondi Stone, attraversati da ampie venature ed effetti di stonizzazione. Completano la collezione THE BLEND i fondi a base cemento Glass con inserti di vetro quadrati dai bordi irregolari, per suggerire nuove interpretazioni della materia ceramica che nascono dalla miscela di texture materiche diverse ma complementari.

An attractive interpretation of concrete in five colours, with warm shades and a soft appeal, blends with bold stone-effect combinations offering the original texture of a Brazilian quartzite in three shades. A clever calibration of colours creates a perfect harmony between the Concrete and Stone backgrounds, crossed by wide grains and shaded effects. THE BLEND collection is completed by Glass concrete backgrounds with square glass inserts with irregular edges, suggesting new interpretations of ceramics born from the mixture of different yet complementary textures.
